## A HAPPY NEW YEAR TO ALL.

**T**HIS we wish most heartily to all our friends and patrons the wide world over ; and as one of the most important questions to young and old, rich and poor, high and low is, "How may a happy new year be attained?" we shall just say a few words on the subject. In the first place, then, without a true regard for religion and morals, there can be no such thing as a happy new year, nor can it be attained, without the utmost caution and circumspection with regard to our health. We all know our duty in relation to the former, and how vital its performance to our well-being both here and hereafter ; but are we so clear, in respect to it, so far as the latter is concerned ? Are we given to moderate eating, to temperance and to cleanliness ? When we find it necessary to take medicine, do we swallow the first pills that are handed to us, without knowing whether they are compounded of damaged drugs or mineral poisons, by disreputable parties, who set no value upon human life or suffering so long as they can make twenty-five cents out of either, or whether—as in the case of the celebrated DR. HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS—they are compounded of precious and life-giving ingredients by men of exalted character and profound medical skill, who for many long years have enjoyed the respect and confidence not only of the citizens of this great Republic, but of the people of every civilized land ? When we are about to take a draught to alleviate some sudden pain or ache, or to purge the stomach, blood or kidneys free of all impurities, do we first satisfy ourselves that it is some such famous distillation as RENNE'S PAIN-KILLING MAGIC OIL, that has for years stood in the very first rank of all great human remedies, or one of those vile drastic abominations that ruin the digestive organs, destroy the coating of the stomach, and consign the patient to a life of hopeless misery ? Before you buy or use a draught, a lotion, a pill or a plaster, look well to the antecedents and character of the manufacturer and that of the vender. One single omission in this relation may embitter your whole life, and leave you a confirmed invalid to the latest hour of your existence. A single dose of new-fangled pills, like that of some new-fangled decoction, has been known to destroy the health of a person beyond redemption ; while a worthless plaster has resulted in the death of a patient from its having failed to arrest in time an ailment not necessarily fatal. Look well to this ! Whatever your illness, avoid startling nostrums, and all medicines and remedies that are not well authenticated, as you would avoid poison. Whether pills, draughts, lotions or plasters, they are in ninety-nine cases out of a hundred got up by unprincipled, poverty-stricken speculators, who deal in the refuse of drug stores, and who have not got a single cent, to live upon beyond what they realize from the vile traffic in which they are engaged. Look well to it, and to your duty toward God and your neighbor, and rest assured that we shall not have wished in vain, A HAPPY NEW YEAR TO ALL !

...

# ASTRONOMICAL CALCULATIONS FOR 1883.

PREPARED EXPRESSLY FOR HERRICK'S ALMANAC,

By **BERLIN H. WRIGHT, Penn Yan, N.Y.**

## ECLIPSES—1883.

There will be four Eclipses this year, two of the Sun and two of the Moon, as follows:

I. A Partial Eclipse of the Moon, April 22, visible in California, invisible in the Eastern States.

II. A Total Eclipse of the Sun, May 6, invisible in the United States.

III. A Partial Eclipse of the Moon, Oct. 15-18, visible throughout the United States, as follows:

	Begin.	Middle.	End.		Begin.	Middle.	End.
	H. M.	H. M.	H. M.		H. M.	H. M.	H. M.
Albany, N. Y. ....	1 9 Morn.	1 59 Morn.	2 55 Morn.	New York City ....	1 2 Morn.	1 58 Morn.	2 54 Morn.

# Dr. L. R. Herrick's Sugar-Coated Vegetable Liver Pills

## THE GREAT CATHARTICS.

FOR almost fifty years no medicine in this country or in Europe has conferred more blessings upon all classes of society, or held a more prominent or enviable position than DR. L. R. HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS. Every age and sex and condition of life has had reason to bless them—from the infant in its mother's arms, to the man bowed beneath the weight of three score years and ten. There is no internal ailment or derangement of the system beyond their reach! They are the great purifiers and regulators of the bile, the stomach and the bowels. No affection of the

vital organs or obstruction of the secretions can withstand their searching and healing influences. Health, strength and a cheerful spirit wait upon them, as can be testified by thousands of living witnesses. They are admitted, in all civilized countries, to be the gentlest, and yet the most powerful, safe and effective medicine before the public to-day. They are compounded of the most precious life-giving ingredients in the light of the most consummate medical experience and skill. They are sold by all druggists, country merchants and dealers in medicine.

**The True Purgative** is always vegetable and always gentle. Rapid action, with fierce gripping pains, is a sure indication of the presence of mineral poisons. As a gentle and purifying cathartic—as a remedy that purges the system of all impurities—as a restorative to health and strength, DR. HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS are without a rival.

**Chills and Fever** arise from a derangement of the liver and digestive organs. For so far, no case of this distressing malady has been discovered able to withstand the searching qualities and extraordinary curative powers of HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS. When taken according to the directions accompanying each box, they never fail!

"Does this razor take hold well?" asked the smiling barber. "Yes," replied the unhappy victim, "it takes hold well, but it don't let go worth a cent."

WHAT is to be said of a cat's appearance when she is so mad that her hair stands on end? Why, that she has a fur-straight appearance, of course.

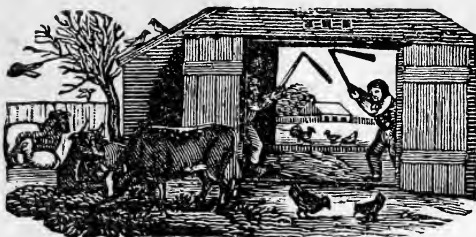

**Dyspepsia.**—This dreadful complaint, which renders the lives of so many thousands utterly miserable at the present moment, can be overcome totally by a judicious and persistent use of HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS. A deficiency of bile, together with a serious derangement of the digestive organs, are the true cause of the malady, and until these organs and the bile, as well as the other secretions, are thoroughly cleansed and purged of all impurities, a permanent cure is out of the question. No other medicine now before the public can compete successfully with these famous Pills in ridding the system of this terrible scourge. Try them. They have never failed yet when used according to the printed directions accompanying each box.

A BUTCHER was lamenting to his Irish landlord that the people of his village were so few and so poor, that he was unable, as formerly, to find customers for a whole bullock. "Kill half a one at a time," replied the squire.

EXCITED Frenchman at Niagara Falls—"Ah! dis is de grand spectakel! Supaarb! Magnifique! By gar, he is come down first-rate!"

# Renne's Pain-Killing Magic Oil

Is purely vegetable; is as clear as the limpid spring; is delightfully aromatic, and free from all stickiness or greasiness.

All PAINS, Aches, Spasms, and Discomforts disappear before a few drops taken internally. It never fails!

**RENNE'S PAIN-KILLING MAGIC OIL.**—A few drops of this extraordinary discovery grapple at once with every Pain, Ache or Ailment, internal or external. When taken at any time, day or night, by young or old, robust or delicate, it acts like a charm.

**Neuralgia**, which, as the name indicates, is a nervous affection, always experiences relief from the use of HERRICK'S SUGAR-COATED PILLS. These great cathartics, which are totally free from all mineral substances, so tend to purify the system, the blood and other secretions, that the nerves speedily become restored to their normal condition, and all pain removed. If the secretions are not kept pure and flowing freely, not only neuralgia but other painful affections may be the result. DR. HERRICK'S SUGAR-COATED PILLS are sold everywhere.

**Liver Complaint.**—All the dangers and discomforts arising from this serious and very common disease may be removed completely through the agency of those world-wide remedies, HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS, which purify the secretions and cleanse the bile and liver so speedily and thoroughly that, after a dose or two, the patient becomes possessed of new life and energies, so to speak. Once these great cathartics take a hold of the system, all lowness of spirits and sallowiness of complexion disappear, while the bodily health generally becomes re-established on a broader and surer foundation. Try these wonderful remedies. They are sold everywhere.

**Rheumatism.**—This painful and universal disease manifests itself for the most part in the larger joints, such as the knees, hips and shoulders, although frequently in the back. It is simply an inflammation of the muscles, and an obstruction of the secretions belonging to these parts, and must therefore be subjected to some treatment that will take hold of the entire system and cool and purify it throughout all its ramifications. No agents have yet been found to accomplish this with greater speed and abiding efficacy than DR. HERRICK'S SUGAR-COATED VEGETABLE PILLS. These wondrous cathartics never fail, and hence their universal fame.

**Consumption.**—This dreadful disease, which so often results from neglected colds and a careless observance of the laws of health, can, in its early stages, be overcome invariably by the use of DR. HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS. These great cathartics purge the system clear of all impurities, cleanse the secretions, and, as a consequence, relieve and invigorate the lungs. In this relation there is no remedy in the world more potent and trustworthy. Let this be noted by all who suffer from weak or oppressed lungs. These pills are sold everywhere.

**Mark Well.**—A furred tongue, a bad taste of the mouth, a flagging appetite, or heaviness about the head or eyes, are each and all the foundation stones of disease, and, if not attended to, frequently result fatally. When assailed by such symptoms, or any of them, seek relief instantly in HERRICK'S PILLS, a single dose of which will act like a charm upon your whole system, and give you new life and energy.

WHY is a specimen of handwriting like a dead pig? Because it is done with the pen.

A boy says in his composition that "Onions are the vegetables that make you sick if you don't eat them yourself."

A PARISHIONER inquired of his pastor the meaning of this line of Scripture:

"He was clothed with curses as with a garment?"

"It signifies," replied the divine, "that the individual had a bad habit of swearing."

**The Kidneys** are situated on each side of the back-bone near the lumbar vertebrae. When diseased they are a source of the most terrible and dangerous suffering. Among other ailments they are subject to that fatal and frightful malady, BRIGHT'S DISEASE. No medicine yet discovered deals with them more speedily and effectively than HERRICK'S SUGAR-COATED VEGETABLE PILLS which purify the secretions as if by magic and relieve these organs of all pain and discomfort.

**Old Sores and Ulcers**, when permitted to eat into the system, frequently so sap its foundations that their removal becomes difficult, if not impossible. If we would overcome them and eradicate them thoroughly, we must assail them with pure new blood, and crowd them out of the system with new tissues, causing the latter to take their place. This is the only way to get rid of them, as they are to be traced solely to vitiated secretions. No case of ulcers or old or running sores can withstand the active and purifying influences of HERRICK'S SUGAR-COATED VEGETABLE PILLS. These great Cathartics are sold and known everywhere.

**Affections of the Skin** arise from impure blood or impaired digestion. They are most unsightly, and besides being a source of great discomfort, destroy all personal comeliness or beauty. To keep the skin and scalp free from all disease, and the complexion pure, all that is necessary is to take an occasional dose of HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS, which so act upon the blood and all the secretions as to purge them of every impurity, and set them flowing with renewed health and vigor throughout the whole system.

**Look Ahead!**—There is no truer saying than that "an ounce of prevention is worth a pound of cure." If, therefore, you would preserve your health and bodily strength intact, you must always keep your system cool and free from anything savoring of constipation or an obstruction of the secretions. This object is best effected through the occasional use of HERRICK'S SUGAR-COATED LIVER PILLS, which, while gentle purgatives, are also tonics, and great purifiers of the blood. They are sold by all druggists, country merchants and dealers in medicines.

**Indigestion**, while dangerous of itself, is a fruitful source of various other maladies. If our digestive organs are deranged, our health and strength must fail, as the food we eat cannot supply the waste of our system. HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS never fail to remove this complaint by freeing the stomach and bowels of all crudities.

THE English language is supposed to consist of about 60,000 distinct words. Of these, ordinary people use only from 500 to 3,000; great orators perhaps as many as 10,000, and lightning rod agents and directory canvassers 59,963.

A STUMP-ORATOR exclaimed, "I know no north, no south, no east, no west, fellow citizens!" "Then," exclaimed an old farmer in the crowd, "it's time you went to school and larnt jography."

A BOY having complained to his father that Bill had thrown the Bible at him, and hurt him on the head, the father replied: "Well, you are the only member of my family on whom the Bible ever made the least impression."

**COMMON COLDS,** Hoarseness, Bronchial affections and all diseases of the lungs and throat experience instant relief from the use of **RENNE'S MAGIC OIL**, mixed with molasses. Thousands have been plucked from the jaws of death through the agency of this wonderful medicine. No family, factory, workshop or public institution, should be without a supply of it. It is sold everywhere.

**Loss of Appetite and Sleep** is generally indicated in advance by a furred tongue and a bad taste in the mouth on rising in the morning. This must be seen to at once. The digestive organs are deranged or the liver affected, and if health is to be restored, the bile, stomach and bowels must be purged of all crudities and vitiated matter. In no other case do HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS show their great virtues more speedily or effectively than in the one under consideration. A dose of from two to six, according to the severity of the symptoms, never fails to afford permanent relief.

**Diseases of Children.**—The extraordinary effect of a dose or two of HERRICK'S SUGAR-COATED VEGETABLE PILLS in cases where children are affected with COUGHS, COLDS, FEVERS, WORMS, SKIN DISEASES, RICKETS, WHOOPING COUGH, etc., has long been a subject of grateful remark. These searching, gentle and soothing purgatives, when used according to the printed directions accompanying each Twenty-five cent box, never fail of their purpose. They purify, cool and invigorate the system so rapidly that the patient is restored to health as if by magic. These famous cathartics are sold everywhere.

**Ladies** who use DR. HERRICK'S PILLS at stated periods are invariably relieved of many discomforts. They never fail a victim to languor, constipation or headache. These gentle cathartics are possessed of rare virtues, as can be attested by thousands of the fair sex who have been restored to vigorous health and strength through their extraordinary purifying and healing powers. In all complaints incident to the sex they have no successful rival in the world. No matter how weak, distressed or delicate the patient may be, they act like a charm. They are sold everywhere.

**General Debility.**—This term is usually applied to that failing condition of our health where no individual ailment or discomfort stands out in bold relief. Its meaning and character are best comprehended by ladies, who are affected more generally by it than are the opposite sex. Languor, loss of appetite, lowness of spirits and a repugnance to exercise, are some of its characteristics; and to remove the cause of these, we must strike at its very root, and rout it out of the system by a course of such purifying, strengthening and life-giving cathartics as HERRICK'S VEGETABLE LIVER PILLS, that have long commanded the confidence and admiration of both hemispheres. These pills are sold everywhere. They are a blessing to both young and old, irrespective of sex.

**Headache.**—For this common and distressing complaint, a dose of HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS is an infallible remedy. When the head aches the bile or the stomach is deranged. These pills correct both at once.

It is getting to be æsthetic for ladies to thank gentlemen who arise and offer them a seat in a street car. We received one thank this morning, being the first in five years. To be sure, we haven't got up much.

A COUNTRYMAN who had never paid more than twenty-five cents to see an exhibition went to view the "Forty Thieves." The ticket-seller charged him seventy-five cents for a ticket. Passing the pasteboard back, he quietly remarked: "Keep it, Mister, I don't want to see the other thirty-nine," and out he marched.

**Costiveness.**—This common ailment although sometimes thought lightly of, is a very prolific source of headache and many other disagreeable affections. To permit it to obtain for any length of time would be to undermine the system, and lay the foundations of permanent disease. It yields invariably to the purifying and gentle purgative qualities of DR. HERRICK'S SUGAR-COATED VEGETABLE PILLS. These famous cathartics are sold everywhere.

**Worms** are only possible in the system when the circulation is deranged and the stomach and intestines are out of order. Their symptoms in children are manifested by emaciation, disturbed sleep, pale or sallow complexion, grinding of the teeth while asleep, dry cough, and uncertain appetite though sometimes voracious, etc. Gentle purgatives and food easy of digestion are the only true remedies here. HERRICK'S PILLS have been found invaluable in this disease, inasmuch as they are compounded of ingredients that purge the system clear at once of all crudities and parasites and restore it to full vigor, speedily.

**Boils.**—These painful torments have their source in a vitiated condition of the blood, as well as in obstructions of the circulation, and of a free flow of the secretions. The only remedy is found in the use of gentle yet searching cathartics, which cleanse the stomach, bowels and liver. Where these organs are purged of all impurities, and the blood kept cool and rich, anything like a boil is totally out of the question. The judicious use of HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS is all that is necessary to prevent the presence of boils, or to rout them out of the system when they do appear.

**Dropsy.**—Among the most powerful and effective preventives and cures for Dropsy, HERRICK'S SUGAR-COATED VEGETABLE PILLS, hold a most distinguished place. This is owing to the fact that these famous cathartics promote digestion in a marked degree, and excite the absorbents to healthy action, so that all enlargements of the abdomen, etc., are reduced and the watery and other deposits gradually disposed of. Where the stomach, bowels and absorbents are in a healthy condition, Dropsy becomes impossible. How necessary then an occasional dose of HERRICK'S PILLS to even persons who are in apparent good health.

## ALL IN A NUTSHELL.

SO all-reaching, all-powerful, and all-healing, are DR. L. R. HERRICK'S SUGAR-COATED VEGETABLE PILLS, they relieve at once, or cure permanently, the following well-known diseases:

Chills and Fever; Dyspepsia; Liver Complaint; Diseases of the Blood; Indigestion; Headache; Consumption; Affections of the Kidneys; Rheumatism; Lowness of Spirits; Costiveness; Old or Running Sores; Piles; Loss of Appetite or Sleep; Jaundice; Erysipelas; Dropsy; Worms; Boils; Neuralgia; Pleurisy; all diseases incident to Children or Ladies; Affections of the Skin; Coughs and Colds; General Debility; Female Irregularities, etc.

These great cathartics are sold by all druggists, dealers in medicine and country merchants.

# Renne's Pain-Killing Magic Oil

All diseases of the skin give way before it; as do old and running sores it so purifies the blood.

It has no equal in cases of scalds, burns, wounds, cuts, or bruises. Here it acts like magic.

**RHEUMATIC AFFECTIONS** never fail to disappear before the searching and healing powers of Renne's Pain Killing Magic Oil. Rub well into the joints or suffering parts; and relief will be all but instantaneous. A few drops taken internally, at the same time, will be of great benefit.

# Dr. Herrick's Perforated Strengthening Plasters.

## SPREAD ON WHITE MUSLIN.

THERE are but two channels through which all portions of our system can be reached by medical agents, and these are our digestive organs and our pores. In the one case the application must be *internal*; in the other, *external*. The whole surface of the human body, is covered with millions upon millions of minute orifices or pores through which, when in a healthy condition, the perspiration exudes freely and which absorb with great readiness the virtues or the injurious essences of any external application. In view of this capacity, plasters and lotions have been compounded and decocted without end, and put upon the market for good or for evil.

Among all the plasters compounded of late years, DR. L. R. HERRICK'S PERFORATED STRENGTHENING PLASTERS spread upon white muslin, hold the most distinguished place as great healers

HOW TO WEAR THEM.

NOTE.—These Plasters do not soil even the most delicate underclothes and are patronized by the fair sex universally. Although, unlike the CAPSICUM OR RED PEPPER PLASTERS, they are intended to be worn for a considerable length of time, they can be removed when thought necessary; and on being lightly sponged with cold water, can be reapplied without the slightest diminution of their virtues. They are beautifully done up singly or in quantities or by the yard to meet the demand of customers and are sold by all druggists, country merchants, and dealers in medicine.

**Weak Chest.**—No matter how free from ailments in other respects, a weak chest is a constant menace and cause of alarm to those who are afflicted with it, and who are not conversant with the proper mode of treating it. A weak or contracted chest can be strengthened and expanded through the use of DR. HERRICK'S PERFORATED STRENGTHENING PLASTERS, applied according to the printed directions.

**The Lungs.**—When from sudden colds or other causes there is any oppression of the chest, or difficulty of breathing, the lungs are temporarily affected. Here are frequently laid the terrible foundations of consumption, but only when those symptoms are neglected and permitted to settle into positive disease. On their first appearance, therefore, recourse should be had to one of HERRICK'S PERFORATED STRENGTHENING PLASTERS at once. This should be applied to the chest in the ordinary way, and should the attack be severe one should be applied a little below each shoulder blade. The result of this treatment would be an almost immediate relaxation of the muscles of the chest and opening of the pores, to the instant relief of the lungs, that would now begin to expand and to absorb the purifying and healing virtues of the Plasters. Once this course is adopted the patient is safe. Note this well

Two physicians at the bedside of a patient disputed as to the nature of the disease. At last one of them ended the discussion by saying: "Very well, have it your own way now, but the post-mortem will show that I am right." The patient was not much encouraged.

and strengtheners; the ingredients of which they are compounded being purely vegetable and possessed of such marvellous virtues as to evoke universal gratitude and wonder. The electrical currents and precious essences continually flowing from them and passing into the system through the pores, have in countless cases wrought cures, considered all but miraculous. In chest complaints, weak-back, loins or kidneys, as well as in all spinal affections, or swollen or rheumatic joints, they stand in the front rank of absolute excellence. In like manner, their efficacy is unrivalled in cases of broken or fractured limbs, bones or ribs, where they add to their other remarkable features the quality of being supports and bandages. The manner of their application will suggest itself to any person; and the fact of the perspiration being permitted to exude through *their own pores*.

**Rheumatism of the Joints.** When the joints become stiff and painful all our movements are restricted, and our bodily health suffers seriously from want of proper or sufficient exercise, not to speak of the great discomfort that constant pain engenders. The speediest and most effective remedy for this common but distressing affection is to be found in the application of one of HERRICK'S PERFORATED STRENGTHENING PLASTERS to the suffering part. Where practicable the Plaster should be wrapped round the joint after the manner of a bandage, otherwise it should be applied in the ordinary way, when relief is certain within a very few minutes.

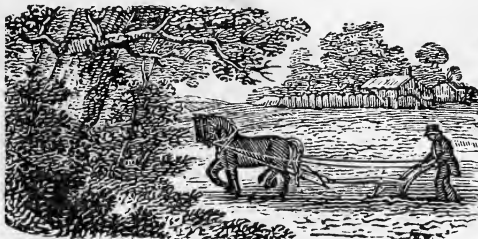

**Affection of the Back or Spine.**—If the Back or the Spinal Column becomes weakened or affected through cold or from any other cause, to avert the most disastrous consequences the treatment must be prompt and free from anything like uncertainty. If we permit this column, commonly called the back bone, to become diseased permanently, the last vestige of health, strength and happiness has disappeared from us in this world. When, therefore, there are any indications of pain or weakness in this region, fly at once to HERRICK'S PERFORATED STRENGTHENING PLASTERS and be healed. They are sold everywhere.

O'LEARY, gazing with astonishment upon an elephant in a menagerie, asked the keeper: "What kind of a baste is that ain' hay with his tail?"

At St. Anne's Sunday School, in Lowell, in answer to the question, "What is the greatest church festival?" a little orphan of six years promptly responded, "The Strawberry festival."

# Renne's Pain-Killing Magic Oil

Cleanses the stomach and bowels; purifies the secretions and leaves the breath as sweet as the rose.

It seizes upon the bile and purges it of all impurities, and restores healthy action to the liver and bowels.

**WEAKNESS AND LANGUOR** arise from impaired digestion as well as from other causes. They indicate a running down of the system generally. **Renne's Magic Oil** is a sure remedy. It gives new life to all the internal organs, promotes appetite and purges the secretions of all impurity.

**Stiff Neck or Shoulders** are relieved at once by one of DR. HERRICK'S PERFORATED STRENGTHENING PLASTERS when applied to the affected part. No more certain or speedy remedy can be adopted in either of these cases. When once it is applied the muscles begin to resume their wonted vigor, flexibility and smoothness of action, and all inflammatory symptoms begin to disappear. These Plasters can be worn with great advantage by even the most delicate child or grown person. They are invaluable, as all the world knows. Try them and judge for yourself. They are for sale everywhere.

**Pain in the Side.**—Whenever there are any symptoms of an attack of this kind, or when the attack itself manifests itself fully, HERRICK'S PERFORATED STRENGTHENING PLASTERS are the surest, the least troublesome and the speediest remedy that can be applied to the case. The relaxation of the pores induced by their application, and the readiness with which they draw the virus out of the system through those minute orifices afford relief at once, and quickly restore the secretions and the tissues to their wonted flow and healthiness, through the agency of the healing, magnetic currents continually passing from them into the system.

**Lumbago.**—This painful and mischievous ailment all but paralyzes the whole system for the time being, and prevents the patient from indulging in any exercise or manual labor whatever. The surest and speediest relief for it is found in HERRICK'S PERFORATED STRENGTHENING PLASTERS, which remove all the strain and inflammation from the muscles of the suffering part, and absorb all the deleterious secretions through the relaxed pores. Try them. They are certain to effect a cure.

**Local Weakness.**—Sometimes we experience symptoms of local weakness without much if any suffering. But when suffering sets in is not the best time for action on our part. Whenever there are any indications of weakness in any of our joints, or in our back or loins, we should at once apply to the particular spot one of HERRICK'S PERFORATED STRENGTHENING PLASTERS, and restoration to health and strength will be the speedy result. These Plasters are sold everywhere; and never fail.

**Spitting of Blood.**—This serious ailment proceeds, as a general thing, from weak lungs, or the rupture of small blood vessels, occasioned by coughing or other spasmodic exertion. The strengthening and healing of the lungs are, of course, of the most vital importance. These ends are best assured by inhaling copious draughts of pure, fresh air; rubbing the chest briskly from time to time, and applying to it one of DR. HERRICK'S PERFORATED STRENGTHENING PLASTERS, which can be removed and reapplied at pleasure.

**Paralysis.**—In all cases of this alarming affection run the spinal column from time to time until the surface of the flesh is greatly excited; then apply between the shoulders and to the small of the back one of HERRICK'S PERFORATED STRENGTHENING PLASTERS, which can be removed, and reapplied at pleasure, after having been sponged lightly with cold water. This course will result beneficially, and afford speedy relief in most cases; as it tends to stimulate the circulation and the action of the pores.

A good looking lass loves a good looking-glass.

**Asthma.**—This distressing disease is greatly alleviated, and finally overcome totally through the agency of HERRICK'S PERFORATED STRENGTHENING PLASTERS when applied to the chest. These remedies not only stimulate the action of the pores, and thereby relieve the lungs and the bronchial tubes, but inject into the system, so to speak, those healing and electrical essences which have long since made them famous in all civilized lands, and which, in countless cases, have effected cures looked upon as miraculous. Try them. They never fail!

**Swellings** of any description or character are reduced speedily and removed permanently by an application of HERRICK'S PERFORATED STRENGTHENING PLASTERS, spread on *white muslin*. These famous specifics draw out gradually through the pores of the skin the sluggish or inactive humors which cause the swellings, and inject through the same channels the magnetic currents that restore the circulation through the affected parts, and cleanse the tissues of all deleterious secretions. In this relation these plasters are without an equal.

**Contraction of the Muscles.**—It will be readily understood that any application that tends to increase the circulation, to excite perspiration and to subdue inflammatory symptoms and soften the contracted tendons or muscles must be invaluable in this distressing ailment. Speedy relief is invariably the result when, after exciting the surface of the skin, one of HERRICK'S PERFORATED STRENGTHENING PLASTERS is applied to the suffering part. These great remedies which are a purely vegetable compound, are sold and used everywhere.

**A Great Desideratum.**—It is a well-known fact that some plasters are stiff, pithy and unpleasant to wear, and that on their removal—the accomplishment of which is generally disagreeable—the patient is very liable to take cold, and drift into bronchial or chest affections. In the case of Dr. HERRICK'S PLASTERS we have quite an opposite state of affairs. They lie close to the flesh, but yet so smooth and easy that they instantly so adapt themselves to all the sinuosities of the surface that their presence, after a few moments, is not felt at all. Add to this the fact that, owing to the nature of the ingredients of which they are compounded, the patient never takes cold on their removal—that the perspiration exudes freely through them—that they can be removed, sponged and re-applied when deemed necessary, without the slightest diminution of their efficacy, and we may form some idea of their value. They are done up beautifully, and sold in *any quantity* to suit purchasers.

When used according to the printed directions accompanying them, either singly or otherwise, DR. L. R. HERRICK'S PERFORATED STRENGTHENING PLASTERS, spread on *white muslin*, work wonders in all cases of Affections of the Back or Spine, Rheumatism or Stiff Joints, Weak Lungs or Chest, Swelling of any sort, Weakness of the Loins, Lumbago, Local Weakness, Pain in the Side or Chest, Stiff Neck or Shoulders, Paralysis, Asthma or Spitting of Blood, Contraction of the Muscles, Difficulty of Breathing, and all affections of the Chest arising from a cold or from other causes. These great preparations are sold everywhere.

# Renne's Pain-Killing Magic Oil

It is a marked blessing to children; removes all their Pains and Aches, and gradually overcomes Dysentery.

It is the gentlest and surest of nurses when given in a little sweetened water to children of the tenderest years.

**SKIN DISEASES** of whatever character give way at once before the wondrous influence of Renne's Magic Oil. When used according to the directions, it cools and purifies the blood, opens the pores and so purges the secretions of all impurities, that the skin becomes as smooth and fair as that of a child.

# RENNE'S PAIN-KILLING MAGIC OIL!

## IT WORKS LIKE A CHARM!

**M**ILLIONS of the human family on this continent and in the Old World are ready to bear joyful witness to the fact that there has never, to their knowledge, been discovered or compounded by man any other medicine possessed of such miraculous healing and purifying powers as **RENNE'S PAIN-KILLING MAGIC OIL**. This precious life-giving preparation, which is wholly vegetable, and which never deteriorates from exposure or age in any climate, is decocted from some of the rarest and most costly roots, resins, gums and plants known to the botany of this country and the East. No language is sufficiently copious or powerful to depict its virtues adequately. As if by some special dispensation of Providence, all ailments, external and internal, seem to come within its reach. In all Wounds, Cuts, Bruises, Sprains, Bites of venomous insects, Scalds or Burns, it has never had its equal in the world; while in removing sud-

deny all internal Pains, Aches, Cramps, Spasms, and other discomforts, its powers are absolutely miraculous. In Coughs, Colds, Rheumatic Affections, Swollen Joints, Throat or Lung ailments, as well as anything pertaining to diseases of the Skin or Scalp, its virtues have long since passed into a proverb. In fact, for instant and permanent relief in any cases of accident or sudden ailment, and for purifying the Blood, the Bile and cleansing the skin, scalp and pores, as well as for giving tone to the stomach and whole system, it heads the long list of remedies now before the public, and stands out in bold relief from them all. This is no vain or empty boast, for both hemispheres have borne witness to the truth of what is here stated, while its further verification is within the reach of any person or household in the land who may not have yet tested the matchless virtues of this extraordinary remedy, although it is sold in every corner of the land.

**Gripping Pains**, no matter how violent, or whether in the case of young or old, are instantly removed by a few drops of **RENNE'S MAGIC OIL** in one-fourth of a wine glass of water sweetened or otherwise. From ten to twelve drops is a fair dose; although in the case of grown persons half a teaspoonful may be administered quite agreeably when properly diluted. In fact, no matter what the dose, no evil results can accrue from it, so precious and life-giving the vegetable ingredients from which it is prepared. Among all medicines it stands forth without a rival. Try it for yourself. It never fails.

A **COUNTRYMAN** walking along the streets of a town found his progress stopped by a close barricade of boards. "What is that for?" he asked to a person in the street. "Oh, that's to stop the cholera." "Ah, I have often heard of a Board of Health, but I never saw one before."

**Common Colds.**—There is no other medicine in the world that deals so speedily and effectively with common coughs and colds as **RENNE'S PAIN-KILLING MAGIC OIL** when mixed with a little molasses. No matter how slight or how severe the affection; it disappears before the miraculous influences of this famous discovery as if by enchantment. To verify the truth of this broad assertion, it is only necessary to test this celebrated preparation in any given case or number of cases. When used according to the printed directions accompanying each bottle, failure is out of the question.

"MA, am I all made now?" said a little miss of three and one-half years at the breakfast table yesterday morning. "Why, dear?" said the fond mother. "Because I have had my ears pierced, and was vaccinated yesterday," said little Tot.

# Renne's Pain-Killing Magic Oil

Is without a rival in earache or face ache. When applied in these cases it should be diluted with water.

Such are its effects in cases of sudden accidents that gunshot wounds and lacerated limbs have been freed of all pain by a single application.

**DISEASES OF THE STOMACH AND BOWELS**, even in their mildest form, are fraught with great danger. The **Magic Oil** acts like a charm in arresting and removing these ailments. Use the medicine according to the printed directions, and a cure follows as certainly as the day follows the night.

**Renne's Pain Killing Magic Oil** is a refined and aromatic spirit, as clear as the crystal spring, and totally free from even the semblance of greasiness or stickiness. It does not soil even the finest cambric, and in this relation alone its use by ladies has been rendered most agreeable where its application is external. So safe and pure and harmless is it, it may be taken by even the most delicate children or invalids; while, strange to say, it is equally effective and applicable in relation to the most robust constitutions. It is sold by all druggists, dealers in medicine and country merchants.

**A Matchless Tonic.**—On the slightest indication of illness or the running down of the system; when there is any sourness of the stomach or anything savoring of heartburn, a few drops of **RENNE'S PAIN-KILLING MAGIC OIL**, taken in a little water, is as certain to afford relief as the sun is to rise to-morrow. No instance of failure is possible. Take the famous specific according to the printed directions, and you are cured. Hundreds of thousands can bear witness to this fact. Test it for yourself. The great Remedy is sold everywhere.

**Earache.**—For this painful ailment sponge the ear well first with luke warm water and then with a little of **RENNE'S MAGIC OIL** diluted with the same. Upon this, fill the orifice of the ear with some cotton wool slightly moistened with the diluted remedy, and the discomfort and pain will disappear speedily. Any neglect of this ailment is liable to lead to a gathering in the ear, involving pain of the most excruciating character, and not unfrequently resulting in deafness, or partial deafness of that organ. See to this if a necessity should arise.

**Cutaneous Affections** of whatever character are unable to withstand for any length of time, the searching and purifying qualities of **RENNE'S MAGIC OIL**. When taken internally and at the same time applied externally, this famous vegetable decoction, absorbed through the pores of the skin, and taken up by the lymphatics, so cools and purifies the blood, and so cleanses all the secretions, that pustule, blotch, or pimple on the surface of the body becomes impossible, while the skin and flesh acquire the softness and fairness of those of a child. Try this great remedy; for all such affections. It is infallible.

**Singers and Public Speakers.**—The organs of the human voice are so delicate and frequently so susceptible of injury arising from even a very slight change of temperature, every public speaker and singer should keep within his or her reach a bottle of **RENNE'S MAGIC OIL**, a few drops of which in a little water instantly allay all irritation and hoarseness, and clear the throat and vocal organs of all impediments. The magical and instantaneous effects of this invaluable remedy are known all the world over in this relation, so that it is almost superfluous to speak of it here.

A **WESTCHESTER** parent is so high-toned that when he cuts a switch from a birch tree, and motions his son towards the woodshed, he politely says, "Drop into the branch office."

THE woman who made a pound of butter from the cream of a joke, and a cheese from the milk of human kindness, has since washed the close of a year, and hung 'em to dry on a bee-line.

**WIFE**—"But my dear, I shall catch cold coming down so late to let you in." Husband—"Oh no, my love, I'll rap you up well before you come down."

**Disease of the Stomach.**—When the stomach is out of order, the whole of the system suffers at once. To interrupt or vitiate the process of digestion is to sow the seeds of disease and death. Hence the stomach must always be kept in a healthy condition; and this can be accomplished only by cleansing it, on the slightest intimation of discomfort, of all impurities, and restoring it to its wonted vigor. To accomplish this at once, and effectually, no medicine can compete with **RENNE'S MAGIC OIL**.

**Bronchial Affections.**—The virtues of **RENNE'S PAIN-KILLING MAGIC OIL** have long since passed into a proverb in relation to those diseases which are, for the most part, the result of neglected colds. The power of this celebrated preparation over the throat and bronchial tubes, is most marvellous. It allays all irritation, cleanses the passages of mucous, and heals the surfaces speedily. All bronchial and throat diseases are dangerous and must be seen to at once.

**Billousness.**—When the bile becomes impure in any degree, or is obstructed in its channels, headache, loss of appetite, nausea, lowness of spirits or any one of various other ailments is sure to be the result. On the first appearance of affections of this character, we may safely set them down to derangement of the liver; and hence the stomach and this vital organ must be purged of all impurities at once. **RENNE'S MAGIC OIL** has for many long years been working wondrous cures in this relation, and has never failed yet in a single instance.

**Constipation.**—This ailment which is caused by a derangement of the digestive organs is a fruitful source of many other discomforts besides its own. If the stomach and bowels are not kept in a state of healthy action, the result may be the appearance of any one of a number of diseases of the most serious character. Any prolonged affection of these vital organs, manifesting itself at first in constipation, could not fail to result fatally. We must, therefore, have recourse at once to that fountain head of all true remedies—**RENNE'S MAGIC OIL**—and cleanse the great laboratory of our system, without delay, according to the printed directions accompanying each bottle.

**All Factories, Families and Boarding Schools** should keep constantly on hand a supply of **RENNE'S PAIN-KILLING MAGIC OIL**, as an instantaneous and infallible remedy for any of the painful accidents to which their inmates are liable at any moment; and as an unfailing specific for any of the sudden internal pains or aches to which we are all subject. The heads of families and the proprietors of such establishments as we have just named, would be able to recognize in this famous discovery, a saving of time, health, strength, and money, and not unfrequently, that of life also.

At a debating society the other evening, two members wrangled as to who had the floor. In a few minutes both had it by turns, with the chairman as referee.

"I'll give that girl a piece of my mind," exclaimed a certain young fellow. "I would not," replied his uncle, "you've none to spare."

A boy solicited charity from an aged man of wealth but met with a rough refusal, whereupon he replied: "You are not very young, and you cannot carry any of your gold with you, but if you could it would melt in five minutes."

# Rénne's Pain-Killing Magic Oil

Mosquito bites, and the stings of venomous insects, are instantly cured by a single application.

Colic, Cholera Morbus and Diarrhœa are instantly arrested by it and speedily driven out of the system.

**SUMMER COMPLAINT** is arrested gradually and speedily cured by **Rénne's Magic Oil** taken from time to time, according to directions. From the mildness and purity of this vegetable decoction, it is especially adapted to children and ladies. It never fails.

**Face Ache.**—The acute suffering which so frequently accompanies this common ailment can be alleviated at once by bathing the affected parts with RENNE'S PAIN-KILLING MAGIC OIL diluted with water. This remedy is infallible and may therefore be resorted to with the most unbounded confidence. In truth, the powers of this famous discovery are so varied and so far reaching, that there does not appear to be a single ailment of the human body beyond its control. Hence it should be found in every household, factory and public institution in the land. Its virtues are beyond all price.

**Scalds and Burns.**—There is no language sufficiently copious to depict faithfully the instantaneous and miraculous effects of RENNE'S PAIN-KILLING MAGIC OIL in the cases of Scalds or Burns. The sudden cessation of all pain after the first few moments on applying the remedy, and the mysterious healing process that at once sets in, are almost beyond the belief of even the sufferer himself or herself, as the case may be. In this relation the world can produce no equal to this famous Remedy—this marvellous discovery. Try it; and you will say it is one of the greatest benefactors of the human family.

**Internal Pains and Aches.**—When young or old are assailed by internal pains or aches, or by any inward discomfort whatever, these ailments can instantly be put to route by a single dose of RENNE'S PAIN-KILLING MAGIC OIL. So numerous and instantaneous the cures in this relation, and so all-powerful, certain and agreeable the remedy, no other specific now before the public can at all compare with this magical preparation. It works like a charm when taken according to the printed directions accompanying each bottle. Those who have tried it once are never to be found without a full supply of it. Test it. It is for sale everywhere.

**Rheumatic Affections.**—So penetrating, stimulating and healing the powers and virtues of RENNE'S PAIN-KILLING MAGIC OIL it at once assails, alleviates and finally overthrows all rheumatic affections. When rubbed briskly into the suffering parts it is so absorbed by the pores and tissues that the circulation is stimulated, inflammation allayed and the secretions cleansed and purified. Rub the joints or parts affected with the great remedy, and take a few drops internally at the same time. The result will be a more copious flow of the perspiration, and the speedy alleviation of all pain.

**Wounds and Bruises.**—Nothing that has yet been discovered in medical research, has been able to compete successfully for a single instant with RENNE'S PAIN-KILLING MAGIC OIL in the case of Wounds or Bruises. No matter how severe or painful these casualties, they are instantly relieved by a single application of this remarkable discovery. Under its soothing, cooling and healing influence inflammation is at once arrested, and all pain utterly destroyed. Its powers in this relation are incredible and can only be understood fully from personal experience or ocular demonstration. Test it in the hour of need; it never fails.

An honest Hibernian, in recommending a cow, said she would give milk year after year without having calves. "Because," said he, "it runs in the breed, for she came of a cow that never had a calf."

Why are young ladies, at the breaking up of a party, like arrows? Because they can't go without beaux, and are in a quiver until they get them.

**Travelers who carry in their satchels a bottle of RENNE'S PAIN-KILLING MAGIC OIL have a doctor for a companion.** Wherever or whenever attacked by any sudden ailment, pain or ache—wherever or whenever they meet with any accident, the remedy is ready at their right hand, and within instant reach. This is matter for serious consideration; and he or she who does not regard it as such, and profit by it, is guilty of criminal neglect. RENNE'S MAGIC OIL is sold everywhere, and is the greatest specific known in the annals of medicine.

**Sportsmen, whether with gun or rod, should never leave home without a bottle of RENNE'S MAGIC OIL in their pocket.** Their sports necessarily taking them some distance from the busy haunts of men, they should keep within their reach this famous remedy, so as to be able to apply it at once in case that any wound, cut, bruise, sprain, or other accident should mar their enjoyment. The value of this marvellous specific has been tested both on the land and on the water, when no other relief was at hand; and with such results as accord to it the first place in the very front rank of all ready remedies, for sudden and painful casualties.

**Coughs and Hoarseness.**—These disagreeable concomitants of humanity can be relieved and removed with speed and certainty through the use of RENNE'S MAGIC OIL mixed with a little syrup of any description. So soothing and healing, so grateful to the throat, and mucous membrane this mixture, that its beneficial effects will be experienced at once, and all symptoms of discomfort and irritation speedily allayed and finally removed totally. RENNE'S MAGIC OIL is used all the world over; and is to be found in every prudent and well-regulated household in the land.

**Sour Stomach.**—The acidity arising from indigestion, and creating sourness of the stomach, is corrected at once by a dose of RENNE'S MAGIC OIL which cleanses the coatings of the stomach, dissolves all crudities in that organ, and forces them out of the system, through the ordinary channels. This is one of the special missions of RENNE'S great discovery; and one in which it never fails. Let this be noted carefully; as sourness of the stomach is not only most distressing, but at times fraught with no small danger.

**Mosquito Bites.**—These pests of all classes of society—rich and poor, high and low—can be instantly deprived of all their vicious and irritating painfulness by applying a few drops of RENNE'S PAIN-KILLING MAGIC OIL to the punctured part, rubbing them in well. The relief is instantaneous and permanent; and as mosquitos are to be found in almost every part of this country, it is of no small moment to be able to counteract at once the effects of their bites. RENNE'S MAGIC OIL is sold by all druggists, country merchants and dealers in medicines; and at the general depot, 69 Murray Street, New York.

An old miser, who was notorious for self-denial, was one day asked why he was so thin. "I do not know," said the miser, "I have tried various means for getting fatter, but without success. "Have you tried victuals," inquired a friend.

A NEW HAMPSHIRE editor, who has been keeping a record of big beets, announces at last that "the beet that beat the beet that beat the other beet is now beaten by a beet that beats all the beets, whether the original beet, the beet that beat the beet, or the beet that beat the beet that beat the other beet."

# Renne's Pain-Killing Magic Oil

It is indispensable in all factories and in all workshops where accidents are of such constant occurrence.

It is the travelers true and trusty friend at a moment's notice, and is an abiding blessing in all families.

**CHILLS AND FEVER** are speedily overcome by RENNE'S MAGIC OIL if the great remedy is used according to directions. This disease has its foundation in a morbid condition of the bile and of the secretions. These must be purified at once, else recovery will become more and more difficult daily. The remedy is within your reach.

**Summer Complaint** is relieved at once and checked gradually in old or young, by **RENNE'S MAGIC OIL**. When this common, though distressing ailment, is permitted to remain unchecked for any length of time, its removal often becomes a matter of difficulty. Because, when it first appears, it may not be accompanied by any absolute suffering, it is frequently allowed to run on until its virus has ramified itself throughout the whole system, and then the matter becomes serious indeed. When assailed by it meet it speedily with that great Remedy—**RENNE'S MAGIC OIL**—which is sold everywhere.

**Neuralgia and Sciatica**.—These dreadful and prevalent afflictions, no matter how aggravated their form, yield ultimately to the searching powers and purifying influences of **RENNE'S PAIN-KILLING MAGIC OIL** when used externally and internally in accordance with the printed directions accompanying each bottle. In these terrible ailments the great Remedy has no successful rival in the world. Foment the affected part with the preparation, and take a few drops internally at the same time, and relief is certain.

## INFORMATION FOR THE PEOPLE.

**Renne's Pain-killing Magic Oil** is wholly extracted from rare and healing plants, leaves and roots. It never deteriorates through age, exposure, or change of climate. It is as harmless as new milk, as aromatic as rose water, and as pure and clear as the limpid spring. It is free from all greasiness or stickiness, does not soil even the finest underclothes, and can be taken with perfect safety by persons of any age or sex—from the infant in the cradle to the man or woman of three score years and ten. It is a speedy and certain alleviation or cure for:—

Colds, Coughs, Gripping Pains, Bronchial Affections, Diseases of Stomach and Bowels, Biliousness, Constipation, Face Ache, Scrofula, Internal Pains and Aches, Cuts, Wounds and Bruises, Sour Stomach, Ear Ache, Cutaneous Affections,

Summer Complaint, Scald or Sore Head, Languor and Sleeplessness, Ascariides and Measles, Scalds and Burns, Rheumatic Affections, Cough and Hoarseness, Mosquito Bites, Ringworm, Shooting Pains, Sore Throat, Nervous Headache, Night Sweats, Consumption, Sprains, Neuralgia and Sciatica; Bites of venomous insects, and almost every other disease in the category of human ailments.

### IT WORKS LIKE A CHARM!

and is sold by all druggists, country merchants, and dealers in medicine, and by the proprietors and manufacturers,

L. W. WARNER & Co.,  
69 Murray St., New York.

## Dr. L. R. Herrick's Kid Strengthening Plasters,

### SPREAD ON WHITE LAMB-SKIN.

If we were asked to point out the difference between **DR. L. R. HERRICK'S PERFORATED STRENGTHENING PLASTERS** spread on white muslin and his **KID STRENGTHENING PLASTERS** spread on white lambskin, we should be inclined to answer, "Just the difference between white muslin and white lambskin—nothing more; for the simple reason that both Plasters are compounded of precisely the same ingredients." This reply would not be very satisfactory although perfectly true; but if we

should go farther and say that in relation to these Plasters we have two classes of customers—the one in the hey day of youth and beauty, who prefer the light and airy white muslin; the other, of more staid and advanced years, who set all store by the more substantial but not less pleasant lambskin. This is the whole secret of the difference; and we leave it to the keeping of our kind friends, with the additional information, that both these famous remedies are sold everywhere on this continent and in Europe.

## IMPORTANT DIRECTIONS.

In the case of any broken bone, fracture, serious sprain or contusion, bathe the part or parts gently with warm water, and then wipe dry with a soft cloth. Upon this apply whole or in strips, as the case may require, one of **HERRICK'S PERFORATED STRENGTHENING PLASTERS**, whether spread on muslin or on lamb skin. If a bone should be broken, it must be re-set before the plaster is applied, when the remedy will not only soothe the pain, but serve as a bandage and support to keep the parts in their proper position until they become united and healed, so that no deformity will result from the accident.

Fractures and sprains are more easily dealt with, although their treatment are mainly the same. The freedom with which the Perforated Plasters allow the perspiration to escape through their multitudinous perforations is a very marked desideratum. Indeed, and permits their being worn with great comfort in whatever case they may be used. Hence, one element of their universal popularity, and one that is supplementary of the fact that they have been long, in more vital relations, regarded as without a successful rival in either hemisphere.

# Renne's Pain-Killing Magic Oil

It works like a charm in tooth-ache, canker, sore mouth, and in salt rheum.

It is unequalled in all rheumatic affections and pains in the joints when applied to the suffering parts.

**CONSUMPTION.** This scourge of the human family has been successfully treated with **Renne's Magic Oil.** Rub well into the chest, take a few drops internally from time to time, and breathe plenty of fresh, pure air while taking gentle exercise, and the result will be all but miraculous.

# DR. L. R. HERRICK'S

## Perforated Capsicum, or Red Pepper Plasters.

### NEVER BLISTER OR SCALD!

These wondrous RUBEFACIENTS or COUNTER IRRITANTS have now superseded almost wholly the old, cruel, painful and scaring blister, so long the dread of all ranks and conditions, and which may be regarded as one of the most barbarous instruments of torture that had ever pertained to the medical profession. The CAPSICUM or RED PEPPER PLASTERS, which are compounded of the most searching though healing ingredients, never give the slightest pain or inconvenience, their mission being to gradually excite the surface of the body and to draw out through the pores of the skin the vitiated humors which are the source of pain and disease, and whose removal from the system can be most SECURELY and SPEEDILY AFFECTED through the pores, without causing the slightest rawness or abrasion of the skin. They are soft, pliant, free from all unpleasant stickiness, and do not soil the underclothes or surface of the body. Nor is their presence manifested, after being once applied, save through a warm and grateful glow which will indicate by its gradually increasing intensity, after some time, the period when they may be removed should the patient deem it necessary. In all cases

HOW TO WEAR THEM.

of inflammation or acute suffering from pain, the CAPSICUM OR RED PEPPER PLASTERS stand at the head of all other similar applications. As GREAT COUNTER-IRRITANTS they have not their equal in the world, as may be verified at any moment. Through their wondrous powers they absorb the disease of any peculiar part of the body through the pores; and, more mysterious still, inject into the system through the same avenues, the healing and purifying essences which have rendered them so universally famous. They are applicable to every age and sex, and can be removed and re-applied at pleasure, without the slightest danger of taking cold on the part of the patient. Of the rapidity of their action in any case it is only necessary to say that they afford certain relief in from FIVE to SEVEN MINUTES, and that, too, without even the remotest sensation of discomfort; the warm glow or excitement they superinduce being agreeable rather than otherwise. They are beautifully done up either singly or by the quantity or in yard rolls to suit all purchasers, and are sold by all Druggists, Country Merchants, and dealers in Medicine.

**Lameness**, whether of the back, joints or limbs, experiences great relief from HERRICK'S CAPSICUM or RED PEPPER PLASTERS. If the ailment should be but of recent origin, the difficulties attending a radical cure will be greatly obviated; but if of old standing, the case is widely different. Under any circumstances, however, these great Rubefacients will prove of undoubted advantage to the sufferer; and if not capable of restoring his limbs to their wonted vigor, will, at least, facilitate their action in a marked degree and render them more pliant. There is no mystery about this. These Plasters are counter irritants and great healers, and hence their universal popularity. Ask for them. They are sold everywhere

**Inflammation of the Stomach** or any acute pain in that region succumbs at once to an application of HERRICK'S CAPSICUM or RED PEPPER PLASTERS, which may be supplemented with advantage by a dose of HERRICK'S SUGAR-COATED VEGETABLE PILLS. Not only is this disease most painful, but extremely dangerous; therefore it must be treated with the greatest promptness and intelligence. Of course, to allay the fever and absorb the heated humors is of the first importance. And this these Plasters do in a manner the most wonderful and grateful. In any case of inflammation they have no successful rival.

An old farmer said of his pastor, who was exceedingly mild in his preaching—"He's a good man, but he always rakes with the teeth up."

A BALD-HEADED professor reproving a youth for the exercises of the fist: "We fight with our heads at this college." The youth reflected a moment and then replied, "Ah, I see, and you have butted all your hair off."

**Inflammation of the Throat** or of the glands of the neck can be alleviated at once by one of HERRICK'S CAPSICUM or RED PEPPER PLASTERS applied in the manner of a bandage to the suffering parts. The irritation set up by these great Remedies on the surface of the skin, allays at once the fever within, and consequently relieves the patient. Any ailment of the neck or throat must be seen to at once; for they, so to speak, are very important avenues of the system, and must be kept in free and healthy action. To permit inflammation, however slight, to obtain in relation to them for any time, would be to court permanent disease or death.

**Sciatica**.—To grapple successfully with this merciless complaint, requires a remedy the most active and positive, and one which has already done good service in the field. In this relation we can say with truth that Dr. L. R. HERRICK'S CAPSICUM or RED PEPPER PLASTERS occupy the very first place, and afford relief to those attacked by this demon more speedily than can be obtained through any other means. Where the pain seems most acute, whether in joint or limb, apply the remedy; and when the counter irritation set up by it antagonizes with the cause of the disease within, relief is, of course, experienced immediately. HERRICK'S CAPSICUM PLASTERS are for sale everywhere. They are without a successful rival.

LITTLE Gertie (after waiting some time for dessert.) "Uncle, don't you have anything after dinner?" "Yes, dear, dyspepsia."

A MAN in Pawtucket made application for insurance on a building situated in a village where there was no fire engine. He was asked, "What are the means in your village for extinguishing fires?" "Well, it rains sometimes," he replied.

# Renne's Pain-Killing Magic Oil

It is certain relief in Neuralgia, Sciatica, and all other nervous affections, when used according to directions.

Its powers are marvelous in all bronchial diseases and affections. Taken internally and applied to the chest it works miracles.

**BILIOUSNESS** is a fruitful source of many dangerous ailments, and of great discomfort to thousands. If the liver does not act, and the bile is not pure and sufficiently copious, anything like health is out of the question. One of the most potent and safe remedies known for this complaint is **Renne's Magic Oil**. Try it.

**Inflammation of the Lungs.**—It is unnecessary to dwell upon the dangerous character of this disease, or upon the vital importance of treating it at once with the utmost decision and intelligence. The lungs are the bellows of life. Through them the blood is oxygenized and revived. Any embarrassment of their action, or clogging of their cells, must result fatally, unless they are relieved speedily. The swiftest and surest mode of restoring them to healthy action lies in the instant application of one of HERRICK'S CAPSICUM OR RED PEPPER PLASTERS over the chest, or rather over the regions they occupy. It can be seen at a glance, that the counter irritation set up by the great Rubefaciants will relieve the patient at once.

**Difficulty of Breathing,** or stuffing of the chest, experiences immediate relief from HERRICK'S CAPSICUM OR RED PEPPER PLASTERS. Spread one of these warm Counter Irritants over the affected region, and soon a loosening of the mucous, and a copious flow of perspiration will break up the attack in fits of expectoration. This ailment generally results from colds or exposure, and when permitted to root itself in the chest or bronchial tubes, it not unfrequently leads to most disastrous results. Therefore, to root it out of the system at once becomes an imperative duty. This is easily effected if it is only taken in time, and the great remedy now mentioned applied in accordance with the printed directions accompanying each Plaster.

**Note This.**—When Dr. L. R. Herrick's RED PEPPER PLASTERS have done their work in any special case, on being removed from the surface of the body and sponged lightly with a little cold water, they can be used anew in any suitable case, and that too without having deteriorated in strength or efficacy in even the slightest degree. The Capsicum and other ingredients of which they are compounded unite and blend in such a way as to render them almost imperishable. This is a matter of great moment to those who live in thinly populated districts or remote from towns or villages.

## THESE PLASTERS

**NEVER** scald, burn or blister even the most delicate skin.

**Never** fail to afford relief in from FIVE to SEVEN minutes.

**Never** fail to allay the pains arising from Neuralgia or Sciatica.

**Never** fail to relieve Pleurisy and all inflammatory symptoms.

**Never** fail to overcome inflammation of the Chest, Stomach, Bowels or Kidneys.

**Never** fail to remove acute pains of whatever description.

**Never** fail to overcome all acute rheumatic affections and to relieve stiff back, limbs or joints. They may be used without the slightest fear of taking cold after their removal, and by all ages and every sex. They are sold by all druggists, country merchants and dealers in medicine.

## PERRIN'S FUMIGATOR FOR CATARRH, AND OTHER DANGEROUS AFFECTIONS.

**Catarrh** may be termed a cankerous and vicious discharge from the mucous membrane especially that of the nose, fauces, and bronchial tubes. In the whole category of human ailments there is not a more loathsome or frightful disease. Although it is but the result of a neglected cold, once it burrows into the head and system it begins to destroy every feature of the human form divine, until at last we drop piece-meal into the grave. The only remedy for this terrible malady is PERRIN'S FUMIGATOR—a discovery which has rescued countless sufferers from the very jaws of the most frightful of all deaths.

SMOKING THE CIGARETTE.

**The Pipe and Cigarette.**—In smoking either of these for ASTHMA, MINISTERS' SORE THROAT, or any other bronchial affection, occasionally retain the smoke for some time in the mouth, and then blow it slowly through the nostrils. There is nothing in any degree offensive or unpleasant in the FUMIGATOR. If the smoke cannot be readily disposed of through the nostrils let it escape from the mouth in the ordinary way. While using PERRIN'S FUMIGATOR, should the patient suffer in any degree from constipation, a dose of HERRICK'S SUGAR-COATED VEGE-

**Perrin's Fumigator** is also an infallible remedy for Asthma, Ministers' Sore Throat, and various other bronchial affections. It is smoked in a clay pipe after the manner of ordinary tobacco, or as cigarettes beautifully done up in the far-famed rice paper. In its odor it bears no semblance whatever to anything like medicine or common tobacco and may be smoked privately without fear of detection by ladies, and openly by gentlemen.

**TABLE PILLS** will be found of great service. This invaluable remedy for Catarrh which may be used with the utmost safety by persons of any age or sex, is sold everywhere. It is sold in loose form or as cigarettes by all druggists, country merchants and dealers in medicines.

**DIPHTHERIA and BRONCHITIS.** These dreadful complaints are met most successfully by the judicious use of Renne's Magic Oil which cleanses the throat and bronchial tubes as if by magic. When it is used externally and as a gargle, these ailments disappear speedily. It always succeeds.

## USEFUL RECEIPTS AND MEMORANDA.

**MISSISSIPPI CORN BREAD.**—One pint of boiled rice, mashed fine, one pint of corn meal, one teaspoonful of butter or lard; bake in a pan like a pound cake, in a hot oven.

**SHORT CAKE.**—Two tablespoonsful of butter, two cups sugar, two eggs, one teaspoonful soda, two of cream tartar, one cup milk, and three of flour.

**PUFF PUDDING.**—Eight eggs beaten lightly; eight tablespoonsful sifted flour; one quart of milk, a little salt. Bake half an hour in a quick oven. Eat with sauce.

**POTATO PUFF.**—Two cups of cold mashed potatoes, stir in two tablespoonsful of melted butter, beating to a cream; add two well-beaten eggs, one cup of cream or milk; pour into a deep dish, bake in a quick oven.

**QUICK LOAF CAKE.**—One cup of sugar, half cup of butter, one egg, one cup of milk, two teaspoons of baking powder, two cups of flour, one cup of raisins.

**PERFECT BISCUIT.**—One pound flour, half teaspoonful salt, two teaspoonsful baking powder. Sift together flour, salt, and powder, then add three-quarters pint milk or water. Bake immediately in a hot oven.

**POTATO ROLLS.**—Boil one pint of sliced and peeled potatoes, pour off the water, mash fine, add one and a half pints of water, then strain, half cup sugar, one tablespoonful lard, one teaspoon of yeast. Rise over night. This makes one loaf and one pan of rolls.

**PERFECT SILVER CAKE.**—Three-quarter cup butter, two cups sugar, four cups flour, one cup sweet milk, two teaspoonsful baking powder, whites of five eggs; flavor to taste.

**TO MAKE TOUGH MEAT TENDER.**—Soak it in vinegar and water, if a very large piece, for about twelve hours. For ten pounds of beef use three quarters of water to three-quarters of a pint of vinegar, and soak it for six or seven hours.

**BROWN BREAD.**—Three cups of yellow Indian meal, one and a half cups of rye meal, three cups of sour milk, half cup of molasses, one teaspoonful of saleratus. Steam three hours, then bake three hours slowly.

**SUET PUDDING.**—One pint of milk, one pint of syrup, half pound of raisins, half pound of currants, half pound of suet; add prepared flour as stiff as pound-cake. Spice to suit taste.

**SUCCOTASH.**—Time, one hour and a half. Cut off the corn from the cobs, and put the cobs in just water enough to cover them, and boil one hour; then remove the cobs and put in the corn and a quart of Lima beans, and boil thirty minutes. When boiled add some cream or milk, salt and butter.

**LEMON PIE.**—Juice and grated rind of three lemons, small lump of butter, two cups of sugar, three hot water, three tablespoonsful of corn starch; let them come to a boil, set them off to cool, then add three eggs well beaten. This will make two pies.

**TO BROIL FISH.**—A clear fire is required. Rub the bars of your gridiron with dripping or a piece of beef suet, to prevent the fish from sticking to it. Put a good piece of butter into a dish, work into it enough salt and pepper to season the fish. Lay the fish on it when it is broiled, and with a knife blade put the butter over every part. Serve very hot.

**TO TAKE INK OUT OF LINEN.**—Dip the ink spot in pure melted tallow, then wash out the tallow and the ink will come out with it. This is said to be unfailing.

**BUTTER-MAKING IN WINTER.**—Keep the animals warm, feed three times a day, give some roots, and plenty of corn-meal, or the provender made by grinding oats and marrowfat peas together. When the milk is strained, set the pans on the stove and warm the milk slowly; when as hot as the finger can easily bear, set the pans away in a room not cold enough to freeze. Keep the cream-pot moderately warm.

**KEEPING APPLES AND PEARS.**—They should be kept from air and light. Shutters should be placed in the windows to exclude the air. A few days before using, dessert apples and pears should be removed to a somewhat warmer atmosphere, and have air and light to give flavor.

**KEEPING POTATOES.**—Experience proves that potatoes should be kept through the winter in a dry and cold atmosphere—the drier the better, provided it be above the freezing-point. All changes of temperature or of the degrees of moisture are unfavorable. Where only small quantities are to be stored, as for family use, they should be assorted into barrels, the interstices filled with sun-dried sand, and the whole covered with nicely fitted turfs. Sprouting or shrivelling is thus prevented, and much of the original freshness of the potato is retained.

**ELDERBERRY INK.**—A correspondent of the *Scientific American* furnishes the following recipe: "One half gallon of juice of elderberries, one ounce coppers, two drachms alum, twenty drops creosote, dissolved in a small quantity of alcohol. The ink keeps a violet color several years, and then becomes of a brownish tint.

**A USEFUL CEMENT.**—The *Railway Times* says that a useful cement for closing up cracks in stove-plates, stove-doors, etc., is prepared by mixing finely pulverized iron, such as can be secured at the druggist's, with liquid water-glass, to a thick paste, and then coating the cracks with it. The hotter the fire then becomes, the more does the cement melt and combine with its metal ingredients, and the more completely will the crack become closed.

**HOW TO CLEANSE WATER.**—The editor of *Hall's Journal of Health* has often in times past "settled" Mississippi water, and made it look "as clear as a bell," by tying a bit of alum to a string and twirling it around for a few seconds beneath the surface of a glassful. The same authority further states that if a lump of alum as large as the thumb-joint is thrown into four or five gallons of boiling soap-suds, the scum runs over and leaves the water clean and soft and useful for washing.

**USEFUL MEMORANDA.**—A box 24 inches by 16 inches square and 8 inches deep will contain a barrel, or 5 bush 18, or 10,732 cubic inches.

A box 24 in. s by 11 inches square and 14 inches deep will contain a half barrel, or 2½ bushels, or 5,376 cubic inches.

A box 16 inches by 16.8 inches square and 8 inches deep will contain one bushel, or 2,150.4 cubic inches.

A box 12 inches by 11.2 inches square and 8 inches deep will contain half a bushel, or 1,075.2 cubic inches.

A box 8 inches by 8.4 inches square and 8 inches deep will contain one peck, or 537.6 cubic inches.

A box 8 inches by 8 inches square and 4.2 inches deep will contain half a peck, or 268.8 cubic inches.

A box 7 inches by 4 inches square and 4.8 inches deep will contain half a gallon, or 134.4 cubic inches.

# Renne's Pain-Killing Magic Oil

Chills and Fever, Sore Eyes, Erysipelas, Ring Worm, Tape Worm, and worms of every description are cured by it.

For all internal ailments, take a few drops in a little water. For all external ailments rub well into the affected parts.

**NOTA BENE.**—Neither Cough, Cold, Bruise, Cut, Scald nor Burn—Neither Pain, Ache, nor any internal or external ailment can withstand the miraculous powers of **Renne's Magic Oil**. A few drops applied outwardly or taken inwardly, as the case may be, acts like a charm.

OWNERS OF  
HORSES, CATTLE, SHEEP, HOGS & POULTRY  
SHOULD READ  
HORSE SENSE.

- FEED your horse regularly and with proper food, in sufficient quantity.  
TREAT your horse kindly at all times. Give him pure water to drink.  
KEEP your horse in a well-ventilated and dry stable.  
CLEAN and wash down your horse's limbs after his day's work.  
NEVER allow your horse to drink cold water when he is heated, unless in small quantities, and even then his exercise must be continued till he gets cool.  
WHEN your horse is very warm, walk him about till he cools before placing him in the stable.  
NEVER leave your horse's legs wet. Always rub them and his feet dry.  
KEEP your horse well groomed, and free from all dirt, so as to promote healthy action of the skin.  
WHEN your Horses, Cattle, Sheep, Hogs or Poultry require medicine, give HARVELL'S CONDITION POWDERS only. **Beware of LARGE PACKAGES OF HORSE MEDICINE, which are offered CHEAP.** They usually contain Coal Ashes, Cotton-seed Meal, Damaged Drugs, and various inert materials, to make them appear bulky. If your Stock is worth giving medicine to, give the BEST, and that is HARVELL'S POWDERS. If you cannot get it at your nearest store, write to **L. W. WARNER & CO., Proprietors, 69 Murray Street, New York,** who will fill orders promptly.

## CARD TO THE PUBLIC.

**THE HORSE OWNER'S FRIEND** is a work intended as a guide for owners of horses and cattle, to enable them to treat the diseases of the same with success, and at a trifling cost. Owing to the large number of remedies offered for sale, many of which are actually injurious when used for diseases they profess to cure, the public must be particular and obtain **HARVELL'S CONDITION POWDERS** and **DR. HERRICK'S GERMAN LINIMENT** only.

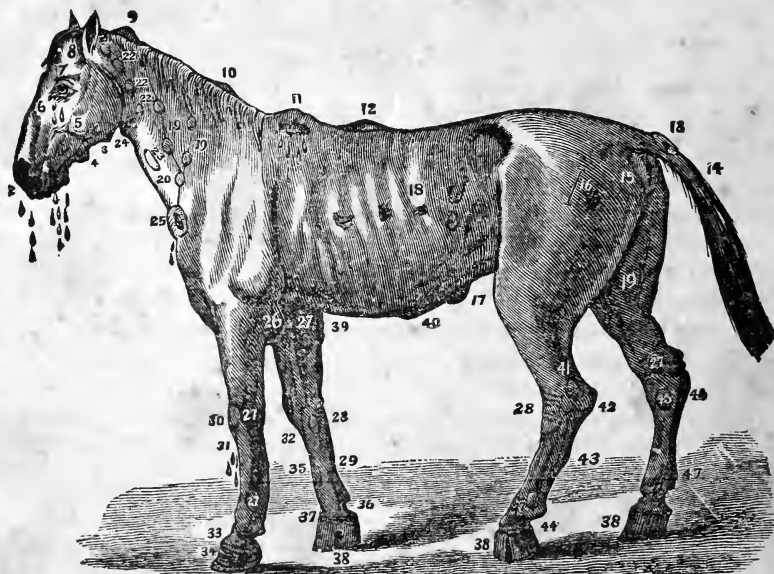

In consequence of mismanagement and ill-treatment, horses are exposed to a number of formidable diseases. A description of some of the most important of these diseases is given in this work and their remedies pointed out. In horses, as in men, "prevention is better than cure;" but, when disease does come, it is best to have **HARVELL'S CONDITION POWDERS** and **DR. HERRICK'S GERMAN LINIMENT** in the stable for immediate use. Many valuable horses have been saved by them; and the mass of testimonials forwarded to us, show that in the range of treatment of diseases in horses these remedies have no superior. But not alone for horses are the **CONDITION POWDERS** serviceable; for in all affections of Cattle, Sheep, Hogs and Poultry, they are most salutary and economic also.

"**THE HORSE OWNER'S FRIEND**" will be mailed, on receipt of a three cent stamp. Write for "**HORSE OWNER'S FRIEND**."

Published by **DR. L. R. HERRICK**,  
Box 241 P. O., New York.

# THE HORSE OWNER'S FRIEND.

Giving a description of the Internal and External Diseases and Ailments of Horses, Cattle, Mules, Sheep, Hogs and Poultry, with a Sure and Safe Method of Curing them.

Examine diagram to locate the disease, and follow fully the directions as set forth under each corresponding number. The Treatment for each disease will be found in the "**Horse Owner's Friend**."

### Nos. 1, 2 and 3.—Glanders.

**CAUSES.**—Bad lodging, stimulating food, and excessive work operating upon young life.

**SYMPTOMS.**—Staring coat; lungs or air-passages always affected; flesh fades; glands swell; spirits low; appetite bad; a lymphatic gland adheres to the inside of the jaw; the membrane inside the nose ulcerates; a slight discharge from one nostril; this becomes thicker, and adheres to the margin of the nostril, exhibiting white threads and bits of mucus; then it changes to a full stream of foul pus; next the nasal membrane grows dull and dropsical; the margins of the nostrils enlarge; the horse breathes with difficulty; the discharge turns discolored and abhorrent; farcy breaks forth, and the animal dies of suffocation.

**TREATMENT.**—There is no known cure, but the constant use of HARVELL'S CONDITION POWDERS will prevent the disease.

### No. 4.—Carics and Diseases of the Jaw.

**CAUSES.**—Maltreatment; pulling the snaffle; abuse of the bit; too tight a curb-chain.

### No. 5.—Fistula of the Parotid Gland.

**CAUSES.**—Hay-seeds or other substances getting into the mouth of the duct during mastication; stones being found within the canal.

### No. 6.—Diseases of the Eye.

**CAUSES.**—Various; often brutality, foreign bodies, as hay-seed, chaff, or dirt in the eye, whitewashed walls, small, dark, and filthy stables, and the exhalation of ammonia.

### No. 7.—Scars on Forehead and over the Eyes.

**CAUSES.**—Often ill usage; knocking the head when in pain, or when blind, or bites from other horses.

### No. 8.—Scars from Old Fontanels and Diseases of the Brain.

Among the causes known in producing diseases of the brain, are hard usage, over-work, and bad feeding. Some horses are more subject to these diseases than others, and are liable to have an attack whenever the stomach or digestive organs are out of order. Therefore prevention is better than cure, and the best plan is to give occasional doses of HARVELL'S CONDITION POWDERS.

### No. 9.—Poll Evil.

**CAUSES.**—Hanging back in the halter, hitting the poll against the top of the stable or door, blows on the head, and any external injury.

### No. 10.—Prurigo or Mane Scab.

**CAUSES.**—Starvation, bad food, lodging and grooming, filth and dirt, turning out to grass.

### No. 11.—Fistulous Withers.

**CAUSE.**—External injury; often caused by the saddle.

### No. 12.—Saddle-Galls, etc.

**CAUSES.**—Ill-fitting or old saddles, excessive riding or working.

### No. 13.—Fistulous Tail.

### No. 14.—Rat Tail.

**CAUSES.**—The foolish practice of pulling the tail, excessive and uncured mange and worms, causing the horse to rub his tail violently; bad health and dirt.

### No. 15.—Falling of the Fundament.

### No. 16.—Luxation of the Patella, or Whirl Bone Displaced.

**CAUSES.**—Accident, but oftener bad management; short and bad food causing weakness, and especially in young horses.

### No. 17.—Hernia, or Rupture.

The intestines protruding through a natural or artificial opening of the belly.

### No. 18.—Broken Ribs.

**CAUSE.**—Ill-usage, the result of carelessness or accident.

### No. 19.—Farcy.

**CAUSE.**—Excessive labor, poor food, and bad lodging, acting upon old age.

### No. 20.—Sores from Constant Bleedings.

**CAUSE AND SYMPTOMS.**—Nearly similar to No. 14.

### No. 21.—Bridle Swelling.

**CAUSE.**—Ill-fitting bridles.

### No. 22.—Fistula, and Inflamed Parotid Gland.

**CAUSE.**—The after effects of No. 5 and inflammation of the throat.

### No. 23.—Inflamed Jugular Vein, or Phlebitis.

**CAUSE.**—The abuse of a practice only required in nine cases out of ten; that is: Bleeding.

### No. 24.—Sore Throat.

**CAUSES.**—Close stables, standing in cold or rain while sweating, and after hard work or driving.

### No. 25.—Tumors Caused by Collars.

**CAUSES.**—Ill-fitting, badly made, and old, worn-out collars; also over-work.

### No. 26.—Capped Elbow, or Shoe Tumor.

**CAUSE.**—Injury to the point of the elbow.

### No. 27.—Wind Galls.

**CAUSE.**—Hard work.

### No. 28.—Mallenders and Sallenders.

**CAUSE.**—Neglect.

Mallenders, a scurfy patch at the back of the knee; sallenders, a scurfy patch in front of the hock.

### No. 29.—Splint.

**CAUSES.**—Early and too hard work; blows, kicks, etc.

### No. 30.—Capped Knee.

**CAUSE.**—Injury to point of calcis or front of knee.

### No. 31.—Broken Knee and Open Joint.

**CAUSE.**—Falls or kicks.

### No. 32.—Clap of the Back Sinews.

**CAUSE.**—Extra exertion.

### No. 33.—Ringbone.

**CAUSE.**—Dragging heavy loads up steep hills.

### No. 34.—Acute and Chronic Founder, or Contracted Ring Foot.

**CAUSE.**—An inflammation of parts of the foot, originating in too hard work or in cold. It is not always confined to the hoof, but sometimes attacks the sensible fleshy?

### No. 35.—Sprung Knees and Knuckled Fetlocks.

**CAUSE.**—Excessive driving and work, with carelessness.

### No. 36.—Quittor.

**CAUSES.**—Confined matter of a corn; or, prick of the sole; or from injuries to the coronet, causing it to form matter; this often works downward, as it cannot pierce the skin of the coronet; it often attacks the cartilages and causes great lameness.

### No. 37.—Tread on the Coronet and Over-Reach.

CAUSES.—Of tread, fatigue and overweight. Over-Reach—When a good stepper is very tired this accident sometimes happens—the coronet (or part over the top of the hoof) of the fore foot on the outer side being severely wounded by the inside of the hind shoe.

### No. 38.—Sand, Cow, Toe, and Quarter Cracks.

CAUSES.—Want of cleanliness, bad health, causing imperfect secretion, and treading for any length of time on a dry soil.

### No. 39.—Girth Swellings.

CAUSES.—Over-riding or taking heavy loads down hill with very tight girths.

### No. 40.—Wind Colic, or Belly-Ache.

CAUSES.—Fast driving; change of water or food, getting wet, giving water or large feeds while hot; fatiguing journeys; aloes; and often when no cause can be traced, but the symptoms are known to almost every one.

### No. 41.—Thoroughpin.

CAUSE.—Excessive labor.

### No. 42.—Capped Hocks.

Cause, symptoms and treatment same as for capped knee. (See No. 30.)

### No. 43.—Swelled and Sprung Sinews.

CAUSES.—Hard work on uneven ground; plunging, or a sudden twist or jerk while ridden or driven.

### No. 44.—Scratches.

CAUSES.—Age, debility, excessive labor, neglect, filth, and cutting the hair off the heels.

### No. 45.—Spavin.

CAUSE.—Hard work.

SYMPTOMS.—A bony enlargement upon the lower and inner side of the hock prevents the leg being properly placed, and hinders the hoof being turned outward, causes the front of the shoe to be worn, and the toe of the hoof to be blunted by dragging the foot along the ground, leaves the stable limping, but is better with exercise. Sickie or cow-hocked horses are most subject to Spavin.

### No. 46.—Curb.

CAUSES.—Galloping on uneven ground; wrenching the limb with rearing, prancing, leaping, or being pulled up suddenly on the hanches.

### No. 47.—Swollen Legs.

Foment with salt and hot water; rub with Dr. HERRICK'S GERMAN HORSE LINIMENT; give HARVELL'S CONDITION POWDERS.

### Influenza or Distemper.

CAUSE.—Unknown.

SYMPTOMS.—Loss of appetite, sore throat, discharge from the nostrils, deep-seated cough and debility.

### Coughs or Colds.

CAUSES.—Exposure, neglect, foul stables, etc.

### Diseases of the Urinary Organs.

CAUSES.—Animal out of condition; improper food; exposure; strong physics, etc.

### Rheumatism.

CAUSE.—Exposure; sometimes hereditary.

SYMPTOMS.—Stiffness of joints, want of flexibility of muscles and tendons, swelling of limbs and its shifting from one part of the body to

another. Some animals will be very bad one day and the next will be entirely over it.

TREATMENT.—Bathe the parts affected several times a day with Dr. HERRICK'S GERMAN HORSE LINIMENT, and give a tablespoonful of HARVELL'S CONDITION POWDERS night and morning for several weeks; it will entirely remove the cause of the disease.

### Worms.

CAUSE.—Often the result of unsound food, and derangement of digestive organs.

### Slavering or Foaming at the Mouth.

Slavering, slobbering, or foaming at the mouth is easily cured by a few doses of HARVELL'S CONDITION POWDERS; a change of diet is often necessary. Horses fed on new grass will slaver; always give good food if you wish a healthy animal.

### Inflammation of the Stomach and Intestines.

CAUSE.—Irritation from local causes produced by improper food, sudden checking of perspiration, such as throwing cold water upon the legs and back after a hard ride, standing in a high wind or a draught.

### Corns.

CAUSE.—Bruises to a tender or sensitive sole.

### Broken Wind.

CAUSES.—Old age; prolonged work, and bad food.

SYMPTOMS.—Short, dry, hacking cough, caused by irritability of the larynx; ravenous appetite; insatiable thirst; abundant flatus. Dung half digested; belly pendulous; coat ragged; aspect dejected; respiration is performed by a triple effort; inspiration is spasmodic and single; expiration is labored and double.

TREATMENT.—Relief is possible; never give water before work, and give but half a pail at a time, about four times in twenty-four hours; feed morning and night HARVELL'S CONDITION POWDERS, *always dry*, mixed with the feed.

### Caked Udder in Cows.

Bathe freely with Dr. HERRICK'S GERMAN HORSE LINIMENT. It will either scatter the complaint or bring it to the surface; if treated properly and attentively for a few days a speedy cure will result.

### Murrain in Cattle.

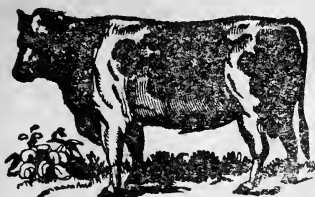

Cattle in newly settled sections of the country are more liable to disease than those grazing on old farm lands, because the new laid-out farms are not properly drained.

SYMPTOMS.—The limbs become swollen a little at first, but increasing each day, until the animal seems oppressed for breath; the pulse is accelerated; it staggers; the respirations are short and quick; tumors and swellings show in every part of the body, and unless speedy relief is given death ensues within a few days.

TREATMENT.—Give two heaping tablespoonfuls of HARVELL'S CONDITION POWDERS in a warm bran mash, in order to drench the animal. Repeat this night and morning until the stomach and bowels are thoroughly emptied, and when the droppings cease, care must be taken to see the animal does not stand exposed to cold winds. Bathe the ulcers or sores with HERRICK'S GERMAN HORSE LINIMENT; they will heal up as soon as the inflammation in the blood subsides.

(This Liniment will, as an external application, be found to relieve all rheumatic pains in either man or beast.)

## BEEVES

AND all meat bearing stock, are improved in health, weight and fatness through the use of HARVELL'S CONDITION POWDERS. Nay more, their flesh becomes finer and of better flavor, so that their market value will always be the highest. Growers and dealers can satisfy themselves of this fact, by giving these great specifics a fair trial—specifics which, when properly understood, have become an abiding source of wealth. The evidences of their genuineness are to be found in every portion of this country and of Canada. Inquire, and be guided by the result.

## THE HOG.

THIS animal forms so important an article of food in this country, and of commerce also, that any treatment that would enhance his weight and the flavor and quality of his flesh, must be of grave consequence indeed. To be brief, then, to make the hog healthy and remunerative he must be well fed, kept in a clean pen, with a dry bed, and with clean water. It is an error to suppose that the hog is the filthy animal he is said to be; all that he has been charged with in this relation, are but simple evidences of the neglect with which he has been treated. Give him fair play, and mix his food with HARVELL'S CONDITION POWDERS, and he will not only be kept free of every disease, but become an abiding source of wealth. These Powders are sold everywhere.

## SHEEP.

THESE animals are a most important factor in our material prosperity. The prominent place they occupy in the manufacture of clothing would, in this relation alone, entitle them to the most careful consideration; but when we come to examine the fact that, in addition, they furnish an indispensable and favorite article of our food for our tables, we will perceive at once how essential it is to so manage them as to realize from their raising the largest amount of the best meat and wool. To insure this they must be kept in a state of perfect health through the agency of HARVELL'S CONDITION POWDERS, mixed occasionally with their food. This course pursued, we will soon have finer mutton, finer wool and finer lambs. Test the great specifics, and judge for yourselves.

## IMPORTANT TO POULTRY GROWERS.

IF fowls are kept clean, and well sheltered from wind and wet; are not overfed, and have a due proportion of both soft and green food, with a never-failing supply of clean water, they will remain free from disease, unless infected by other fowls.

**Bad Fledging.**—Chickens often droop, and suffer much whilst their feathers are growing, especially in cold, wet weather, and the breeds which feather most rapidly suffer most. This crisis seldom lasts more than a week or ten days; the chicks recover their health and vigor.

**Gapes** is a fatal disease of chickens. It never occurs except there has been foul water exposure to wet, and want of nourishing food. The disease consists, at least so far as actual symptoms extend, in a number of small worms which infest the windpipe, and cause the poor chicken to gasp for breath.

**Roup** is always caused by wet or very cold winds. It begins with a common cold, and terminates in an offensive discharge from the nostrils and eyes. It is most highly contagious, let all fowls affected by it be at once put by themselves, and have a separate water vessel. Keep them warm, and feed with meal only, mixed with a table-spoonful of HARVELL'S CONDITION POWDERS in warm water.

**Pip** is analogous to a "foul tongue" in human beings. Cure the roup, or bad digestion, and the thickening of the tongue will disappear.

**Diarrhœa** may be caused either by cold, wet weather, with inadequate shelter, neglect in cleaning the house and run, or from the reaction after constipation caused by too little green food. Feed on warm barley meal; give some green food, but not very much; and at first administer a tea-spoonful of HARVELL'S CONDITION POWDERS in their food twice a day.

**Insect Vermin**, which can only be troublesome from gross neglect either of the fowls or of their habitations. The remedy is a dust-bath, of equal parts powdered charcoal and coal ashes well mixed, and an energetic lime-washing of the house and sheds will get rid of the annoyance.

It will be seen that by far the greater proportion of poultry diseases arise either from cold and wet, or neglect in preserving cleanliness. Give the invalid warmth and good shelter, with HARVELL'S CONDITION POWDER in its food.

**NOTE.**—A general rule for keeping fowls healthy is to take one pint of Indian meal and one table-spoonful HARVELL'S CONDITION POWDERS, mixed together thoroughly, and then moistened with water enough to make it quite a stiff mixture, occasionally adding a small quantity ground Cayenne pepper; give the mixture twice a week. Vary the quantity of powder used to age and requirements of the fowls. Harvell's Condition Powders can be had at all druggists and dealers in medicine, and at the Manufacturers and Proprietors, L. W. WARNER & Co., 69 Murray Street, New York.
